

We Learn, We Build, We Play with...
LEGO® Bricks

AFTER SCHOOL CLASSES

After-School Enrichment Classes Using LEGO® bricks, Motors, & Battery Packs

Hands-on classes where students:

- Use architecture and engineering principles to learn concepts across a variety of subject areas
- Develop teamwork, creativity, and problem-solving skills in a place where they can play and socialize with friends while unwinding after school

Payment due by first day of class

Your child's learning doesn't need to stop when the bell rings. At Bricks 4 Kidz®, we believe it's important to tap into a child's potential by encouraging their curiosity and creativity in and out of the classroom. Our fun-filled model plans designed by engineers and architects, teach children to learn with LEGO® Bricks. Our theme based project kits motivate children by reinforcing S.T.E.M. based principles while enhancing self-esteem, improving fine-motor skills, and teaching important classroom lessons such as organization and following directions.
